

A New Beginning Is On the Horizon

A new business park is being constructed to provide many outstanding benefits to our customers. And the operational efficiencies we plan to achieve will be reflected in the superb quality of our high-efficiency, energy-saving heating and cooling systems. As a member of one of the world's largest

manufacturers, everyone is excited about the outstanding values that the new facility will bring to our current and future customers. The development and construction of the new facility should be viewed as a strong, long-term commitment to all customers in North America.

Goodman is building a new facility near Houston, Texas.

Highlights of the new facility:

- \$417 million investment by Daikin Industries L.T.D.
- Approximately 4.1 million square feet of space under one roof (about 60 football fields or 320 single family home neighborhoods)
- When completed, facility will include engineering, logistics, manufacturing, and marketing departments and associated support departments
- Additional quality, training and technical labs

Goodman: Heat transfer experts

When you think about it, the efficient movement of heat is a basic premise of the HVAC industry. Whether it's the removal of heat in conjunction with cooling products or the creation of heat for warmth, the HVAC world revolves around the thermodynamics of heat transfer.

The Goodman brand® offers a full line of heating products including residential gas furnaces, heat pumps, and packaged products. In nearly every product you'll find a variety of unique features that complement the goal that all Goodman brand products are designed to be easy to sell, install and maintain.

Goodman brand heat pumps offer outstanding standard enhancements on the entire line, regardless of tonnage or SEER levels. All Goodman brand gas furnaces feature a unique, award-winning, and incredibly durable tubular, dual-diameter heat exchanger. Residential Packaged and Commercial

Packaged products utilize many of the same enhancements and durable features, too.

We design, engineer, manufacture and test every heating product to make certain that we provide you with the best value possible. Further, every unit is run tested before it leaves our manufacturing facilities.

Our definition of best value is the optimum combination of reliability, dependability, availability, efficiency, performance, and price. Our company was founded by a dealer. We're certain that HVAC dealers continue to seek the best value from both HVAC manufacturers and distributors today.

So, when you're looking for the brand that offers more choices, simply look to the Goodman brand. For full information on the Goodman brand, be certain to visit www.goodmanmfg.com.

ONCE YOU CHOOSE THE GOODMAN® BRAND,
YOU'LL PROBABLY BE A FAN FOR LIFE.

Millions of homeowners across North America are big fans already.

YOU COULD BECOME ONE, TOO!

Just go to www.goodmanmfg.com/reviews
and find out why you'll say "Thank goodness for Goodman®."

GOODMAN – A MEMBER OF DAIKIN GROUP

Daikin Industries, Ltd. (DIL) is a global Fortune 1000 company. It is a worldwide leader for residential and commercial HVAC. DIL is engaged primarily in the development, manufacture, sale, and aftermarket support of heating, ventilation, air conditioning and refrigeration equipment, refrigerants and other chemicals, as well as oil hydraulic products. DIL is headquartered in Osaka, Japan.

The company provides innovative, premium quality indoor climate management solutions to meet the changing needs of residential, commercial, and industrial customers.

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Our continuing commitment to quality products may mean a change in specifications without notice. © 2016 Goodman Manufacturing Company, L.P. Houston, Texas • USA
